### Tattoo Directions

1. Remove plastic protective film.
2. Apply face down on skin (avoid eyes or sensitive skin). Make sure area is clean and free of oil or cosmetics.
3. Apply wet cloth, paper towel or sponge. Allow 30 to 45 seconds (do not hurry).
4. Remove paper and you will have a great looking temporary tattoo. If you want that real looking tattoo, lightly wash over with soap and water.
5. Removing is easy. Just use, baby oil, rubbing alcohol or scotch tape. Allow the baby oil to set for a few seconds and then rub off. With the tape just press down on tattoo and it will come off with the tape.
